Who We Are

United Pharma is a global, science leading Bio-Pharma organization offers technology, process and consulting services. With a simple vision to be choice of diverse customers and highly skilled employees with a larger purpose for the betterment of the society. We offer consulting services, resources and tailor-made applications to the pharmaceutical, biotechnology and medical device industries. Not only that we are stretching our services to Open Access Scientific Publishing and organizing Scientific Conferences too.

What We Do

At United Pharma, we do Quality control & Assurance, Validation Services, Pharmacovigilance, and Clinical Data Management Services. We are specialized in Validation services, our customers include from the Pharmaceutical, Bio-tech industry. Our Validation team travels across the globe and is capable of supporting small to large scale validation projects. Our Validation Services includes but not limited to – Equipment & Instrument Qualification, Cleaning Validation, Facilities & Utilities Validation, Process Validation, and Computer Systems Validation. The United Pharma is capable of delivering quality work from early proof of concept to late-phase clinical trials including post-launch product lifecycle management.

United Pharma Journals and Conferences is in the process of expanding collaborations and associations with Academic Institutions, Pharma Universities and International Partners. United Pharma Conferences and Journals is primarily engaged in providing high quality and efficient services in open access scientific publishing and organizing scientific webinars and conferences. Our open-access online scientific journals have well qualified and eminent Editorial Team and Virtual Webinars were conducted with Outstanding Eminent People from WHO, FDA, European Medicines Agency, Top-Notch Pharma Personalities and Expertise Academic Professionals, Great Researchers as our Keynote speakers.
